

STEAM LABS

Part 2: New labs from winter session

WOW
CAMPS AND CLASSES

NOW ENROLLING

@ Barnard Elementary TK-3rd grade

Students Will Investigate, Experiment, Build, and Measure in Hands-On Labs

This S.T.E.A.M (science, technology, engineering, art and math) class gives students a fundamental understanding of structures, motorized systems, and scientific forces. Students will experiment and build with a variety of materials to learn important concepts such as cause and effect, energy transformation, and chemical reactions. Each time your child comes to class will be a new "lab" that will challenge their design process and bring learning to life!
